

LEGENDVIZ™ TRAFFIC SIGN

Shown to increase sign legibility distance by as much as 100 percent compared to standard traffic signs*, LegendViz™ Traffic Signs feature highly visible, LED-illuminated legends for improved visibility at night.

- Enhanced sign legibility without retroreflectivity or headlights
- Designed for quick and easy one-person installation
- Legend illuminated from dusk to dawn
- 7+ days of solar autonomy
- Solar or AC power options for flexible configuration
- MUTCD compliant
- Made in the USA

*According to the results of a closed-course driver trial and statistical analysis conducted by the Texas A&M Transportation Institute (TTI)

LEGENDVIZ™ APPLICATIONS

LOW AMBIENT LIGHT CONDITIONS

PERPENDICULAR OR OFFSET ANGLE

DANGEROUS LOCATIONS

SPECIFICATIONS

POWER	6VDC - 12VDC or low voltage; current controlled through TAPCO controller
SIGN SUBSTRATE	0.080" highway-grade aluminum; perforated legend
REFLECTIVE SHEETING	3M™ translucent DG3; anti-graffiti overlay
